PROJECTS

1) Developed E-commerce Site for Clint Winters
Site: https://www.shopdefy.co/

- Technologies Used: Shopify, Shopify Liquid, HTML, CSS, JavaScript, Online Store 2.0
- Key Contributions:
- Developed a fully customized Shopify e-commerce website for Clint Winters, ensuring improved scalability, performance, and user experience.
- Utilized Shopify Liquid, CSS, and JavaScript to create dynamic, user-friendly interfaces with a focus on responsiveness.
- Customized Shopify themes using Online Store 2.0, adding dynamic sections, meta fields, and custom layouts to meet client requirements.
- Managed product data integration, layout updates, and feature enhancements to maintain seamless functionality.
- Integrated multiple Shopify apps, third-party APIs, and custom features to expand store capabilities and improve conversion rates.
- Actively maintained the Shopify store with frequent content updates, pricing adjustments, and feature enhancements to ensure an optimized user experience and sales growth.

2) Developed Skin care E-commerce Site for Numan K
Site: https://sakinahbodycare.com/

- Developed a premium skincare line featuring whipped shea butter infused with natural ingredients and richly scented body oils.
- Focused on quality, integrity, and purpose throughout the development process.
- Founded Sakinah Bath and Body Inc. with a commitment to ethical and honest business practices.
- Designed custom Canva images for product backgrounds to enhance visual appeal.
- Created and managed email marketing campaigns to drive customer engagement and sales.

3) Developed Skin care E-commerce Site for Clint Winters
Site: https://agedefy.com/

- Redesigned the website layout for enhanced user experience and accessibility.
- Added the Loox app for customer feedback to add credibility and engagement.
- Created new product content and improvised descriptions for enhanced conversions.
- Implemented a mega menu for improved site organization and accessibility.
- Redesigned product page layout for a fresher and more user-friendly design.
- Included new sections to improve functionality and highlight key features well.

4) Daily Thoughts using react (localsite)

- **Frontend Framework:** React (v19)
- **State Management:** Redux Toolkit
- **Styling:** Tailwind CSS
- **Backend Service:** Appwrite
- **Rich Text Editor:** Draft.js & TinyMCE
- **Form Handling:** React Hook Form
- **Routing:** React Router DOM
- **HTML Parsing:** HTML React Parser

Project Overview

Daily Thoughts is a web application that allows users to create, edit, and manage their daily thoughts, journals, or blog entries. The project leverages modern tools and libraries to ensure scalability, performance, and user-friendly UI.
